### About Janice

Janice VanCronkhite spent many years as a tennis pro and world-ranked player before she and her husband, David, founded Blood n Fire Ministries, serving the poor in Atlanta and around the world. Several years ago a "suddenly" occurred in Janice's life. The Lord began downloading dreams and visions and she couldn't wait to paint what she was seeing. Even though she had majored in studio art at Florida State University, it wasn't until God released this passion to paint His heart that art exploded for her.

Janice now paints live during conferences with Patricia King, Bill Johnson, Heidi Baker, and many others. She also conducts art and creativity release workshops around the country and art retreats at her studio/gallery on Lake Oconee in Georgia. She has a heart and supernatural gifting to remove the obstacles and see people set free to move in their own creative destiny.
